

UFO Reality Shift?

**Governments
may soon break
fifty years of
silence to tell us
the truth about
UFOs visiting
our planet.**

**But will they tell
the whole
truth...?**

THE ROSWELL INCIDENT

Recent and upcoming developments point to public disclosure of UFO and extraterrestrial reality in the very near future. The US GAO (General Accounting Office—the congressional investigative agency) has completed its investigation of the cover-up of documents related to the 1947 Roswell saucer crash retrieval and autopsies of extraterrestrial bodies. This investigation had been commissioned by Congressman Steven Schiff of New Mexico. Senator Diane Feinstein joined in requesting that the GAO look into the Roswell incident.

The GAO's Report about its Roswell and related saucer crashes documentation findings was presented to Congressman Schiff and Senator Feinstein on 28th July 1995, and immediately released to the press by Congressman Schiff.

The Roswell report said that key military documents were apparently destroyed without authorisation. Congressman Schiff characterised these documents as "important", and said that they "should have provided more information". Schiff said, "The military cannot explain who destroyed them or why." He added that Air Force explanations "never fit the fact of high military security used at the time".

According to Representative Schiff, the GAO investigation into the Roswell incident has stirred the interest of a number of US Congress members. Because the GAO interviewed a number of people, and learned various things which were not in its report, the GAO reportedly predicts there will be congressional hearings.

Is Air Force Report no. 3 on Roswell emerging? The US Air Force in September 1994 had issued a report on the Roswell incident which admitted that they had lied to the American public for 47 years. The USAF admitted that what was retrieved from Roswell under extreme military security was *not* a weather balloon. But the September 1994 report said that what was retrieved was "probably" a spy balloon carrying a high-altitude radiation detector (Project *Mogul*). On 16th November 1995, a reliable source reported that a certain compartment within Air Force Intelligence has been developing yet a *third* report on Roswell. Elements from this USAF Roswell Report no. 3 have been leaked to *The New York Times*, and reportedly contain information from a classified USAF document. However, Air Force Headquarters is now struggling with the unauthorised leak of this disinformation, apparently by USAF Intelligence personnel.

REMOTE VIEWING OF UFOs

UFO Magazine's Richard Hall published a 1995 article stating that the Central Intelligence Agency (CIA) will issue a history of its involvement with UFOs. However, now it appears that the CIA will acknowledge its study of UFOs only indirectly and in stages. Stage no. 1 was the wire service reports in January 1996, that the CIA had for decades used remote-viewers (RVs—Defense Department clairvoyants) to view various intelligence targets of interest (such as locating Saddam Hussein's hideout during the Gulf War). Stage no. 2 was the February publication of the revealing book, *Cosmic Voyage*, by Courtney Brown, Ph.D., a university professor and military-trained remote-viewer. In it, Brown reveals that RVs in the Defense Intelligence Agency (DIA)/National Security Agency (NSA)/Army Intelligence and Security Command (INSCOM) (such as Major Ed Dames, Gen. William Stubblebine and Col. John Alexander) broadened their viewing targets to focus on extraterrestrials visiting Earth, including a humanoid Martian race and the spindly "Grey" extraterrestrials. A Washington, DC informant, whom I call "Beltway Throat", reports that Major Dames, Dr Brown's trainer, provided RV briefings to the US Congress as long as 10 years ago. Those briefings included future events that remote-viewers had looked at. Stage no. 3 will be the anticipated admission by DIA, NSA and INSCOM or CIA that remote-viewers have amassed impressive details about our extraterrestrial visitors.

ASTRONAUT GORDON COOPER SPEAKS OUT

In April 1995 at an Arkansas conference, astronaut Gordon Cooper declared that when he was a USAF officer, a four-man Air Force crew was filming a plane landing-gear test at Edwards Air Force Base in 1957 when a UFO swooped down and landed at the base while the Air Force cameras were rolling. The shocked USAF camera crew later brought the film to Edwards AFB Headquarters. Gordon Cooper personally viewed the film. EAFB commanding officers thereafter shipped it to Washington. Nothing has been heard of since about the film.

Astronaut Cooper is expected to make this revelation in a television documentary to be broadcast imminently. He has been cooperating with Irish film producer Jackie Dunn who is working with a Canadian film production company on this major UFO documentary film.

Cooper, also a former Air Force Colonel, granted a second interview to Sam Sherman, of Independent-International Pictures Corporation, who is producing a film, titled *Beyond This Earth*, to be released in early 1996. In it, Cooper says that he "had worked on a UFO system with someone who had been in touch with extraterrestrials and was able to gain some knowledge." This person had made a small UFO prototype, and was working on a 50-foot model, with financial backing from an Arab country, when he died. Cooper also talked about the Center for Advanced Technology which no longer exists. They were apparently involved in back-engineering some kind of alien technology. Cooper also talked about a friend who saw the ET bodies at Roswell.

NASA's MOON COVER-UPS

In a published article in April 1995, former NASA Director of Communications Maurice Chatelain dropped the bombshell revelation that the *Apollo* Moon Mission found "several mysterious geometric structures of unnatural origin" on the Moon.

Donna Tietze, a former photo technician at NASA's Johnson Space Center in Houston during the *Apollo* Moon missions, revealed during a 6th May 1995 radio interview on WOL-AM in Washington, DC, that the job of a co-worker in a restricted area was to airbrush out UFOs from photos from the Moon before NASA sold those photos to the public.

Another former astronaut, Dr Brian O'Leary, on 18th September 1994 made the following declarations publicly at the International

Forum on New Science in Fort Collins, Colorado. Dr O'Leary said that "For nearly 50 years, the secrecy apparatus within the United States Government has kept from the public UFO and alien contact information." He flatly stated that "We have contact with alien cultures..." As for the non-disclosure of these facts, Dr O'Leary said, "The suppression of UFO and other extraterrestrial intelligence information for at least 47 years is probably being orchestrated by an elite band of men in the CIA, NSA, DIA and their like. This small group appears able to keep these already-hard-to-believe secrets very well. ...Those who have investigated this hydra-headed beast believe that the Cosmic Watergate of UFO, alien, mind-control, genetic engineering, free-energy, anti-gravity propulsion and other secrets will make Watergate or Irangate appear to be kindergarten exercises."

THE ROCKEFELLER CONNECTION

In 1993, Laurance Rockefeller, long an interested follower of the UFO phenomenon, assisted by his 'point man' on UFO matters, Cdr Scott Jones, Ph.D., USN-ONI (Ret.), former career intelligence officer, began a campaign, dubbed the "White House Initiative", to get the current administration to reveal to the public promptly, yet responsibly, what the government knows about UFOs and ET visitation.

Rockefeller and Jones met with Clinton White House Science Adviser Dr John Gibbons in March 1993 and presented a "Matrix of UFO Belief" analysis monograph. A follow-up visit by Mr Rockefeller took place with Dr Gibbons at the White House on 4th February 1994. Thereafter, it is reliably reported that President Clinton gave initial agreement to the White House Initiative. Subsequently, White House Science Adviser Gibbons was tasked to find out everything about UFOs.

A recent Freedom of Information Act request directed to Dr Gibbons yielded a cache of UFO-related correspondence between Dr Gibbons and Laurance Rockefeller, Dr Scott Jones, US Air Force officials, former French Government UFO investigations office (GEPAN) official Dr Jacques Vallee, and former Defense Secretary Melvin Laird. Defense Secretary Laird is the official who also authored a letter (which I have seen) to incoming Clinton Administration Defense Secretary Les Aspin, offering to brief him about UFO matters. Dr Jacques Vallee, in April 1995, briefed White House Science Adviser Gibbons on his knowledge of the UFO phenomenon.

On the weekend of 19th-20th August 1995, Laurance Rockefeller had President Clinton as his guest at his Wyoming ranch in the Grand Tetons. The *New York Daily News* reported that Rockefeller has been pressing the Clinton Administration to open the government's UFO files. The *News* has obtained correspondence from Laurance Rockefeller to White House Science Adviser Dr John Gibbons, in which Rockefeller stated that the government must put an end to over 40 years' denial of UFOs. Mr Rockefeller recently funded a study on UFO activity, which involved the help of three former astronauts. This study is expected to be presented to the White House in early 1996.

THE WHITE HOUSE

When he first took office, President Carter tried to learn what the government knew about UFOs. President Carter was denied access to UFO information which the CIA had, by then-CIA Director George Bush who told the President he did not have clearance for that information. In similar fashion, President Clinton is not satisfied with the briefings he has gotten from the CIA on UFOs because the CIA information conflicts with the information which the President's Science Adviser Jack Gibbons has independently acquired.

A source in contact with the CIA's UFO Desk within the Directorate for Science and Technology, reports that President Clinton has already made several pilot videos of proposed alternative public announcements about UFOs and ET presence/visitation.

Dr Steven Greer, head of CSETI (Committee for the Study of Extra-Terrestrial Intelligence), has likewise provided two White House briefings to Science Adviser Gibbons on his UFO findings. Dr Greer has also been making international contacts with European governmental leaders in an attempt to achieve consensus on an international joint statement acknowledging UFO and ET visitation reality. Dr Greer is engaged in this project in concert with the BSW Foundation's Marie Galbraith, a good friend of Laurance Rockefeller and wife of Evan Galbraith, President Reagan's former Ambassador to France.

UFO NUMBERS INCREASING?

On 5th June 1995 at a Bay Area lecture, Dr Steven Greer revealed further findings. He has received leaked information that the Air Force, through its North American Air Defense Command (NORAD) facility deep inside Cheyenne Mountain, Colorado, tracks an average of 500 "fastwalkers" (UFOs) each year entering the Earth's atmosphere from deep space.

This corroborates a similar report from AeroJet engineers Lee Graham and Ron Regehr who have shown UFO researcher Don Ecker documents revealing that AeroJet's DSP satellite system alone routinely detects UFOs flying into Earth's atmosphere from deep space two to three times per month.

Pulitzer Prize-winning journalist Howard Blum reported that NORAD tracks many UFOs on its deep-space radars.

Dr Greer has talked to a fellow medical doctor, the nephew of a pilot who, with General Jimmy Doolittle, was commissioned by President Harry Truman to report on "Foo Fighters" during World War II. (Foo Fighters were levitating lighted globes, perhaps a metre in diameter, which silently paced Allied and Nazi fighters and bombers during WWII and were never officially explained.) This officer reported back to Truman that the Foo Fighters were real, were not German craft, and were most likely of extraterrestrial origin.

Two separate intelligence sources have provided Dr Greer with accounts of rogue units in covert compartments of military agencies who are directing Black Budget and SDI weapons systems at UFOs and have downed two UFOs in the past two years. One source, a physicist in the Office of Naval Intelligence, has said that this shooting-down of non-hostile UFOs is done by out-of-control, arrogant "cowboys" using "unimaginable technologies" without any justification.

Author Whitley Strieber, in his new book, *Breakthrough*, states that he has seen a portion of a document which reveals that the same EG&G Corporation which is involved at Area 51 is involved in defence weapons against extraterrestrials.

Dr Greer went on to note that key members of the government, military and intelligence as well as international leaders are "out of the loop" on detailed UFO information and are not being informed about hostile actions directed against these visitors.

Former NATO (SHAPE) Intelligence Sergeant-Major Robert

Dean has revealed the contents of an extremely classified 1964 SHAPE *Assessment* of UFOs and ETs which stated, among other things, that UFOs are real extraterrestrial spacecraft, that at least four and probably more ET races are visiting the Earth, that their intentions do not seem warlike, and that it appears they have been studying the Earth for a very long time.

Sgt-Major Dean also revealed that, in 1961, a flying disc as long as a football field crashed near Timmensdorf, Germany. Twelve ET bodies were found inside. Their blood was not red, but a viscous greenish fluid.

Dean reported that, in 1989, a 100-yard-wide UFO disc hovered for over an hour over the headquarters of the Soviet Air Defence Command.

In 1993 there was a series of unidentified submerged objects (USOs) sighted in the Norwegian Sea. The USOs were the size of aircraft carriers and moved at extraordinary speeds. In response, NATO sea exercises were conducted in the area. During the

NATO exercises, a US carrier/destroyer disappeared off the radar scopes of the other naval vessels and has not reappeared to date.

More recently, on 19th June 1995, six F-14 Navy fighter jets intercepted a UFO over Puerto Rico. Radio transmissions between the jets and the control tower were recorded by civilians on the ground. The F-14s and their crews never returned to their carrier.

Dean reported that government insiders feel that we are dealing with hundreds of ET civilisations—some intergalactic, some interdimensional. He noted that 10 years ago, NASA set up a scientific committee which came

to the conclusion that there are an estimated 10 billion planets with intelligent life.

"STARGATE"

Sgt-Major Dean has assembled 20 astronauts, former intelligence officers and servicemen who participated in crashed UFO retrieval operations—generals, admirals, and even cosmonauts who are willing to testify to a congressional committee about what they know about UFOs, provided that they are released from their national security oaths. The videotaped depositions of key witnesses have been taken by a prestigious Washington, DC law firm and stored in its safe, awaiting public hearings.

Dean is working with CSETI's Dr Steven Greer, in concert with former astronaut Gordon Cooper, other astronauts, another high-ranking military officer and a general, to plan the release of UFO information to which they are privy. Dr Greer and Sgt-Major Dean are part of a coalition, called "Stargate", which has been putting together the best evidence of UFO/ET reality. The evidence includes not only that of military and intelligence officers who participated in UFO-crash retrievals and autopsies on ET corpses, but also of fighter pilots, generals, astronauts and cosmonauts who have witnessed UFOs close up, as well as UFO metal samples and ET tissue samples.

The coalition's plan is to take their briefing document and evidence to world leaders, the United Nations, scientific academies and religious leaders for a pre-briefing. Then the coalition will make a public disclosure within the next five months. Dr Greer reports that the White House, the Joint Chiefs of Staff at the Pentagon, and the UN are being enlisted to assist, and no one has said that this cannot come out.

... government insiders feel that we are dealing with hundreds of ET civilisations—some intergalactic, some interdimensional.

On 17th August 1995, Sgt-Major Robert Dean announced the beginning of a citizen's campaign to compel Congress to grant congressional immunity to astronauts and military and intelligence witnesses who are ready to testify at congressional UFO hearings. Dean has acquired the services of a political strategist who has developed a plan to inject the UFO subject into the 1996 political agenda, including the presidential campaign. The coalition has several senators and Congress members who are favourable. The goal of all these efforts is to make UFO information and the ET reality known to the public through televised public congressional hearings.

On 21st October 1995, staff to the leadership of a key congressional committee indicated that the chairman was ready to hold public hearings on UFOs if a scientifically credible panel of experts could be assembled. I assembled this panel in four days—a speed which may have surprised the committee. The committee has not yet indicated when it will move forward with the hearing, or whether this was just a trial balloon.

TESTING THE PUBLIC REACTION TO UFOs

On the weekend of 18th-19th March 1995, the Disney Corporation conducted a sneak telecast of a UFO documentary without any prior announcement in five TV viewing areas (Connecticut, Tennessee, Alabama, Florida and California). This amazing documentary, featuring Disney Chief Executive Officer Michael Eisner, put the reputation of the Disney Corporation behind the documentary's many startling statements, such as the following:

- "Mankind is in the midst of the most profound event in history: actual contact with intelligent life from other planets."

- "Intelligent life from distant galaxies is now attempting to make open contact with the human race, and tonight we'll show you the evidence."

- "From beyond the boundaries of our perceptions, intelligent beings are beckoning mankind to join the galactic community. It's an invitation which is both wondrous and terrifying."

- "Alien ships seem to arrive in waves, and if the last few years are any indication, planet Earth is experiencing a tsunami of sightings."

- "As early as 1947, the large alien ships began to arrive, navigated by living creatures. Their advanced physics allowed them to traverse the galaxy and pierce Earth's atmosphere with amazing speed."

- "More than one alien craft crashed and was recovered for secret US military research."

- "This is the actual site [Roswell, New Mexico] where the Roswell saucer was discovered, along with the bodies of three extraterrestrial missionaries who didn't survive the collision. The debris and the dead were impounded and taken away for top-secret study, while a classified investigative committee, called the Majestic Twelve, was organised by President Truman, and a government cover-up was initiated with a calculated disinformation campaign."

- "For governments determined to maintain their authority, extraterrestrial contact is pure dynamite."

- "When [Jimmy Carter] assumed the office of President of the United States, his staff attempted to explore the availability of official investigations into alien contact. As this internal govern-

ment memo illustrates, *there are some security secrets outside the jurisdiction of the White House.*"

- "In November of 1975, essentially every SAC [Strategic Air Command] base in the United States was visited by UFOs."

- "Indications are that government, military and scientific leaders will soon release nearly a half-century of official documentation of ongoing alien encounters on Earth."

- "Statistics indicate a greater probability that you'll experience extraterrestrial contact in the next five years, than the chances that you will win a state lottery."

- "Most Americans will likely explore outer space aboard crafts of alien origin."

Some UFO researchers feel that these 'stealth' Disney documentary broadcasts were a test of the public's ability to handle the revelation of UFO reality and the government cover-up.

THE ROSWELL 'AUTOPSY' FILM

On Friday 5th May 1995, British TV producer Ray Santilli held a press conference at the London Museum to announce that he had come into possession of 14 reels of 16-mm military intelligence

film which include scenes from UFO crash retrieval operations by classified Army Air Corps units, along with scenes of autopsies in progress on several extraterrestrial corpses.

Mr Santilli stated that he was given this film by Jack Barnett, an 82-year-old Army photographer who said that he kept back a personal copy of the classified footage he shot at the Roswell UFO crash retrieval operation in July 1947. But Christopher Cory, a business associate of Mr Santilli, feels that this account does not fit and that there are indications that the films came by way of intelli-

"From beyond the boundaries of our perceptions, intelligent beings are beckoning mankind to join the galactic community. It's an invitation which is both wondrous and terrifying."

gence agency 'leaks'.

Some indications that these UFO wreckage and extraterrestrial autopsies films were actually leaked from intelligence sources are the following two incidents. A delegation of Taiwanese UFO researchers who were in London and saw the film in June 1995, said that they had received copies of the same footage *two years earlier* (1993) from the CIA in exchange for some Chinese UFO film footage. And former Air Force intelligence officer Sgt Dick Doty claims that he was shown the Roswell film some time ago at Los Alamos National Laboratory, New Mexico.

On 28th June 1995, a group of 19 senators and Congress members, including Rep. Steven Schiff, was shown a preview of the film of the extraterrestrial autopsy at their request.

One month later, a special film program, entitled *Alien Autopsy: Fact or Fiction?*, was televised publicly around the world on 28th August 1995. The six-fingered, five-to-six-foot-tall ET shown in the autopsy film is not of the same race as the four-fingered, three-and-a-half-foot-tall ET shown in a different film reel Mr Santilli possesses. Such anomalies suggest that the films may actually be of different UFO crash retrieval operations, some at a different date than the Roswell incident.

These inconsistencies may point to a sophisticated *negative-disinformation* campaign by intelligence compartments to divert attention from mushrooming civilian evidence about a 1947 UFO crash at Roswell by foisting onto an unsuspecting Mr Santilli and the world public some hoaxed or misidentified film.

Alternatively, the inconsistencies may point to an even more sophisticated *positive-disinformation* campaign in which actual

military-intelligence footage of a variety of UFO crash retrievals of various places and dates is merged together under the name of "Roswell", so that it will require discernment on the part of the public to distinguish the Roswell scenes from other UFO sites and dates. This latter strategy would also permit fearful disbelievers to reassure themselves that Roswell 'didn't happen', by pointing to scenes in certain film sequences inconsistent with investigated Roswell facts.

The 20-minute film excerpt depicted a grainy image of an autopsy taking place in a well-lit space. This segment is reportedly the second of three autopsies which are photographed on various film reels. There are three human workers shown in a hospital-like environment. Two people are wearing 'radiation-type' (biohazard isolation) white suits, while a third person is looking on behind a glass partition.

The two in isolation suits are working on a humanoid body shown on a black slab. The ET body has a height of five to six feet. Her head is larger than a human's and is shaped differently, with huge development in the back of the skull. She has large, black eyes. The torso has a bloated stomach, possibly from desert decomposition. Extremities have six fingers and six toes. One of her legs is charred, presumably from the crash. There is no cranial or axillary hair. There is no apparent rib structure. Ears and nose are small and rudimentary in comparison with human ones. There are no teeth, and lips are not apparent. The ears are set extremely low, below the jaw hinge. There is no navel. There is a presumably female genital cleft, but there are no apparent breasts. Some researchers feel that this corpse may be a hybrid of ET/human origins because of the presence of genitalia (not ET) and the absence of breasts (not human).

Another film segment, seen earlier by Philip Mantle, an officer of the British UFO Research Association (BUFORA), shows an autopsy involving an extraterrestrial who is three-and-a-half to four feet tall and has four fingers at the end of the upper limbs. The Kodak company has examined some film-leader and says it was of 1947 vintage.

PREPARING FOR CONTACT

A prestigious three-day international conference was held at the Sheraton Washington in Washington, DC, on 27th-29th May, on the subject of what should be the Earth's proper response when it comes out in the open that we are being visited by cultures from elsewhere. The "When Cosmic Cultures Meet" conference featured presentations by scientists, academics, governmental leaders, research professionals, military officers, journalists and religious spokespersons. This major world-class conference revealed the solid acceptance by political, academic, scientific and journalistic figures of the realism of preparing for extraterrestrial contact, and provided a number of compelling statements and revelations.

Arlington Institute national security specialist John L. Petersen compared the current shift in society and culture—involving dramatic breakthroughs in energy sources, ET contact and technology—to the shift from the Middle Ages to the Enlightenment.

Anthropologist/journalist Michael Hesemann likened ET contact to a second Copernican Revolution. He also reported that Soviet KGB UFO files have now become public, revealing, for example, that in 1989 a UFO hovered for two hours over a Soviet nuclear weapons storage facility until finally a MiG fighter came

and caused its departure.

Harvard psychiatrist Dr John Mack presented arresting videotapes of his interviewing of South African fourth-graders who witnessed a UFO set-down at the edge of their recess playground. Then several ETs emerged, one approaching within three metres (nine feet) of one schoolgirl as others watched.

Washington Post journalist Ruth Montgomery related how she had received multiple reports about UFO reality from various military officers with whom she had spoken.

Jaime Maussan, the producer of Mexico's *Sixty Minutes* television documentary program, showed extensive videotapes of UFOs over Mexican population centres. These videotapes show structured craft, flotillas of UFOs, and a vertical column of UFOs inside a translucent plasma(?) field. The most arresting footage is a night-time shot of a UFO hovering near the ground; and, later, a praying-mantis-type extraterrestrial, illuminated, is seen turning towards the camera from perhaps one block away.

Sumerian culture expert Zecharia Sitchin presented evidence from ancient Sumerian tablets for previous contact between extraterrestrials and modern humans' ancestors.

The organiser of the Cosmic Cultures conference, Dr Scott Jones, has made videotapes of the conference available to key congressional and White House figures so that they can be aware that representatives from the scientific, academic, profes-

sional and journalistic communities are well-informed and accepting of UFO and extraterrestrial reality. Scott Jones has also recently sent a survey on UFO awareness and attitudes to all members of Congress.

Jaime Maussan, the producer of Mexico's "Sixty Minutes" television documentary program, showed extensive videotapes of UFOs over Mexican population centres.

A SECRET GOVERNMENT?

On 13th April 1995, family physician Jesse Marcel, Jr, M.D., gave a talk at Helena, Montana. Dr Marcel is the son of the Army Air Corps intelligence officer who was present at the 1947 Roswell flying saucer crash. Dr Marcel told of being invited to Washington, DC, in 1991 by Dick D'Amato, national security specialist for Senator Robert Byrd and liaison member of the National

Security Council. Dick D'Amato insisted that Dr Marcel and he meet in a "secure room". Jesse protested that he was "not going to say anything he had not said before". But D'Amato insisted, saying he had secure things to discuss.

D'Amato acknowledged to Dr Marcel that there was a crash near Roswell, and that aliens were aboard. This was the first time Dr Marcel had heard anyone in government admit to the UFO crash. Dr Marcel said that D'Amato's answer to where the wreckage is now, was, "We [National Security Council] don't know." D'Amato told him that the UFO-reality information should be released, but that an incredibly powerful "black arm" of the government has been keeping it a secret and that enormous sums of money are being spent illegally. He also told Dr Marcel that the National Security Council is trying to find out who these people are and why they are keeping it a secret.

UFO researcher Stanton Friedman confirmed (and had also attended) this meeting with Dick D'Amato. Researcher Timothy Good had also met confidentially with Dick D'Amato in Washington and London. Mr Good confirmed what D'Amato said, and will be reporting in his next book on their meetings and the implications of what was revealed.

In Britain on 2nd July 1995, the big London daily, *The Mail*, reported that Nick Pope, head of the Ministry of Defence's Air Staff Secretariat's Office of Special Reports, had resigned and publicly announced that he is a believer in UFOs and had seen numerous official reports while working in the Ministry of Defence.

UFOs: A US PRESIDENTIAL ELECTION ISSUE?

In view of multiple pressures compelling disclosure of UFO reality, and the exigencies of presidential election-year politics, Congressman Phil Graham and Senator Bob Dole had perhaps best be prepared for the possibility of the Democratic Presidential Re-election Campaign launching an unprecedented kind of "October Surprise". In view of this, one UFO investigator, Dan Smith, has entered into discussions with the Dole and Graham presidential campaigns staff, offering them his information services about UFOs so that Senator Dole and Congressman Graham can minimise their risk of being blind-sided by the UFO cover-up/disclosure issue which may become the sleeper issue of the 1996 presidential campaign.

Well-informed sources tell that both the Republican and Democratic national committees are trying to assess whether UFOs, and government secrecy over UFOs in particular, might be a legitimate issue in the upcoming political season. In an apparent effort to avoid being taken by surprise by the politics of UFO disclosures, Republican National Chairman Hailce Barbour and other RNC officials reportedly have contacted various astronauts to learn from them what they know about UFOs.

The Democratic National Committee is thinking about putting one or more UFO-related questions on a national survey questionnaire they put out in preparation for the next election.

Both major parties are aware that a third party candidate might push the UFO issue, too, to the embarrassment of Republicans and Democrats. It is known that Ross Perot, during his presidential campaign in 1992, made lots of back-channel UFO inquiries.

The UFO campaign issue may have already begun. During the week of 17th September 1995, two national figures referred to UFOs. When former President Jimmy Carter was asked a question about UFOs, he answered by relating how the Director of Central Intelligence had used a psychic to locate precisely a downed secret US plane. This was a veiled reference to intelligence agencies' use of psychics to study UFOs and extraterrestrials. That same week, presidential candidate Bob Dole disparaged President Clinton's economic policy (that more than two per cent economic growth is impossible without inflation) by commenting, "That's like the Air Force saying UFOs are impossible."

INDIAN ELDERS TOLD TO RELEASE ET INFORMATION

Native American spiritual leaders have been receiving messages that it is now time to reveal to the white man secret, centuries-old Indian oral traditions about extraterrestrial visitations. During these visits, the ETs taught the Indians beneficial information and healed some of their sick. Now a Native American spiritual leader is going to gather together the Star Nation Altar-keepers from tribes in North, Central and South America in mid-June 1996, and is inviting certain Anglo ET experts as well so that everyone can share their knowledge in a collective educational circle.

The extraterrestrials also appear to be employing a four-element game plan to reveal their presence:

- Element #1 is to increase the pace, boldness and openness of UFO sightings. Peter Davenport, Director of the National UFO Reporting Center [phone (206) 722 3000], stated that the centre has been swamped by UFO reports which have been escalating since the first week in July. Not only are the reports plentiful, but reports of numerous and multiple kinds of UFOs are now common during a single sighting.

- Element #2 is the coming forward of an increasing number of close-encounter experiencers to acknowledge their contacts to psychotherapists, investigators and the public. Many professional researchers and therapists report increasing numbers of such accounts of extraterrestrial encounters.

- Element #3 is the strong sense of mission felt by numerous UFO experiencers and researchers to work to bring the extraterrestrial presence to public awareness. Reports from around the country verify that many people are feeling such a sense of mission.

- Element #4 is the attitude change in many governmental and other influential leaders to allow release or leaks of UFO information. Numerous instances of the results of such greater openness are evident in the revelations cited earlier in this report.

Meanwhile, 1995 reports of UFO/ET sightings increase. On 9th July near Versailles, Missouri, two Air Force officers and a dozen other witnesses saw five very large UFOs—a triangular craft and four discs, each as long as a football field—hovering over an empty field. On the ground were 20 to 25 extraterrestrials moving about. Three different races were present: some short ones with purplish skin and large ears, another type described as luminous energy beings, and a third group of humanoid ETs in jumpsuits.

On 6th August, numerous people saw clusters of UFOs over

... Nick Pope, head of the Ministry of Defence's Air Staff Secretariat's Office of Special Reports, had resigned and publicly announced that he is a believer in UFOs and had seen numerous official reports while working in the Ministry of Defence.

Continued on page 86

Continued from page 64

Bakersfield, California, which were reported in the Bakersfield paper.

On 7th September in mid-afternoon, a silvery-grey, cigar-shaped UFO the size of a small plane—so near that portholes across its midsection could be seen—descended and landed at a FEMA (Federal Emergency Management Agency) underground installation at Seattle.

On 20th September, two Blackshear, Georgia, policemen called 911 to report an array of six to eight different types of UFOs. One policeman reported that his vehicle had been picked up by a UFO. The Georgia assistant state 911 director also went outside and saw the display of lighted UFOs of different types, including the sports model, a cigar-shaped craft, a wedge shape, a football-shaped UFO which turned blood-red, a flying disc projecting a green beam toward the ground, and an 'Adamski' type with three spherical appendages below a flattened bell-shaped hull.

On 21st September at Salina, Kansas, two policemen in a light plane spotted an array of UFOs and took camcorder videotape of them.

On 22nd September in Redmond, a Seattle suburb, two women, one of them a professional astronomer, saw an array of craft with pulsating red lights.

In early November, *Sightings* broadcast videotape of a huge cigar-shaped UFO moving very fast over the daytime skies of Salida, Colorado.

On 11th June 1995, a UFO was sighted hovering over the headquarters of the CIA at Langley, as reported in the McLean, Virginia, local newspaper and *The Washington Post*. The UFO shone down a bright light on the headquarters. Then it drifted north towards Great Falls, Virginia, where Ron Pandolphi, who runs the UFO Desk at the CIA, has his home. Could it be that the ETs are saying, "Time's up!"?

Multiple, previously reliable sources expect that either a governmental or a civilian expert panel announcement of UFO reality will occur within the next five months. These sources also expect that the beginning of a series of formalised meetings of human and ET representatives will quietly start in 1996.

Subsequent events in 1997, including a predicted announcement of the forthcoming establishment of the first openly

declared, official ET presence on Earth the following year, will make it virtually impossible by 1998 for any informed person to deny extraterrestrial reality. ∞

About the Author:

Richard J. Boylan, Ph.D., is a clinical psychologist with a counselling practice in Sacramento, California, USA. Dr Boylan has been a student of the UFO phenomenon since 1947, but in 1989 he began to interview persons reporting extraterrestrial contact experiences. In late 1991 he commenced an ongoing research investigation into ET encounters with humans. He has written two books, *Extraterrestrial Contact and Human Responses* (1992) and *Close Extraterrestrial Encounters: Positive Experiences with Mysterious Visitors* (Wild Flower Press, 1994), and has had many articles published. Dr Boylan is a founding director of the Academy of Clinical Close Encounter Therapists (ACCET), and has conducted numerous workshops for mental health professionals dealing with specialised counselling for experiencers of ET contact.
